

CERTIFIED UTILITY REVENUE METER GENERATION REPORT

Official Settlement & Interconnection Evidence for Renewable Energy Certificate (REC) Issuance

SETTLEMENT IDENTIFIER:	REC-DEMO-001 / CAISO-2026	SUBMISSION DATE:	September 10, 2026
GENERATION FACILITY:	Mojave Desert Solar One (SOLAR100)	INTERCONNECTION NODE:	GRID-CA-MDS-890
FUEL / RESOURCE TYPE:	Solar Photovoltaic (Single-Axis Tracking)	METER SERIAL NUMBER:	SM-SOLAR-CA-9921
CERTIFIED QUANTITY:	100.000 MWh (100 RECs)	ISSUED TO ENTITY:	IssuerOrg (ISSUER-001)

1. Revenue-Grade Hourly Settlement Interval Data

Interval Start (UTC)	Interval End (UTC)	Active Power (MW)	Net Energy (MWh)	Verification Status
2026-09-10 08:00:00	2026-09-10 10:00:00	12.45 MW	24.90 MWh	VERIFIED
2026-09-10 10:00:00	2026-09-10 12:00:00	22.80 MW	45.60 MWh	VERIFIED
2026-09-10 12:00:00	2026-09-10 14:00:00	24.10 MW	48.20 MWh	VERIFIED
2026-09-10 14:00:00	2026-09-10 16:00:00	15.65 MW	31.30 MWh	VERIFIED

2. Telemetry Ingestion & Cryptographic Identity Validation

This generation record has been extracted directly from the CAISO Energy Management System (EMS) and revenue meter telemetry collector. Telemetry values are captured via bi-directional ANSI C12.20 Class 0.2 accuracy smart meters with DNP3 Secure Authentication. Under Section 26 of the REC Guardian Technical Standard, this physical document forms the authoritative off-chain evidence backing on-chain token creation. Only its SHA-256 cryptographic digest is committed to the permissioned ledger to ensure zero state bloat and total evidentiary integrity.

INDEPENDENT GRID OPERATOR ATTESTATION:

Certified By: Dr. Jonathan Albright, P.E.
Title: CAISO Senior Settlement Engineer
Seal: California Professional Engineer #88219
Calibration Verification: PASSED (ANSI C12.20)

CRYPTO SURVEILLANCE STAMP:

Engine: REC Guardian Forensic Verifier v2.5
Smart Contract: RECContract.createREC
Channel: recchannel (4-Org Permissioned Mesh)
STATUS: VERIFIED & COMMITTED
